ARTISTS INVITE ARTISTS

From 2006 to 2007 a series of events, exhibitions, and curatorial experiments took place in a former city office. The first invited artists were asked to contribute to the initial event and to invite the next duo or trio of participants. Seven projects were thus realized and are now brought together in this volume.

The book is edited by "value," a label that reunites Christoph Lang and Stephan Meylan on artistic and curatorial projects since 1999.
