SPECIFICATIONS:

DESCRIPTION

“Vecchio Cuore” by Swiss artist Valentin Carron is a series of unique lacquered steel sculptures, each hand-painted by the artist.

The present works explore with humour and sarcasm the idea of love: the artist decided to create a standing ashtray with a heart shape but with only one cigarette space holder. The sculptures are emblematic of Carron’s artistic practice and style, where he transforms and plays with the objects, landscapes, and architecture around him.

As a consequence of this, “Vecchio Cuore” rethinks an everyday object into an artistic language.
